DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance: The present invention is directed to a portable information device. Each independent claim identifies the uniquely distinct features "a case coating with metal vacuum-evaporation film material, includes an IC and condensers for resonance connected to an antenna coil for intercommunicates with an external apparatus, a depression serving as a battery receiving section which stored a battery, an antenna coil and a magnetic material sheet, and that covered by a non-metal vacuum-evaporation coating battery cover, wherein the antenna coil is arranged between the battery cover and battery, and the magnetic material sheet is arranged between the antenna coil and the battery within the depression," in combination with the manner claimed. The closest prior arts, Klein US 6,965,866 and Otake Akira JP 09-284038 are teach similarly inventions, however, they fail to disclose the distinct arrangement features above. Therefore, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Son M. Tang whose telephone number is (571)272-2962. The examiner can normally be reached on 4/9 First Friday off.
